

e-BCAV

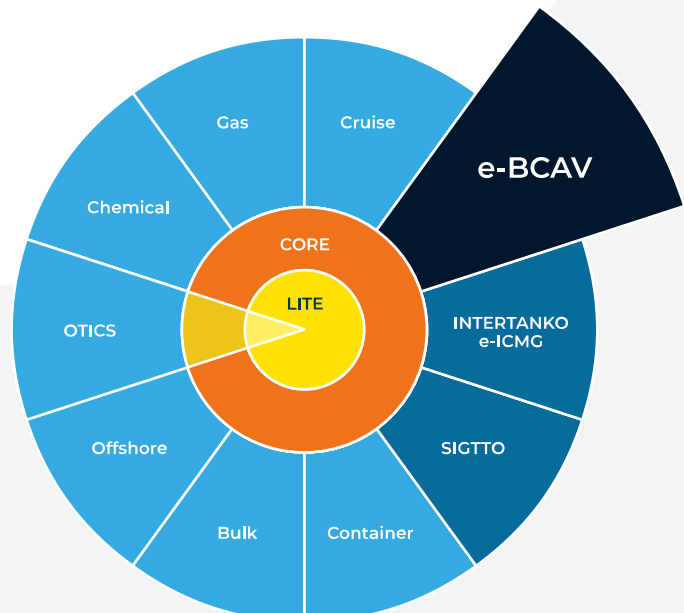

Ensure your officers have the soft skills essential for safe and efficient operations

Ocean Technologies Group e-BCAV is a digital adaptation of the OCIMF and INTERTANKO guidance for essential behavioural competencies of seafarers.

Implementing e-BCAV as software equips you with a set of suggested scenarios to facilitate the assessment of behavioural competencies in your business. Combining e-BCAV with technical competencies in your CMS, provides you with a reliable, consistent and continuous record of complementary skills in one place.

Benefits of e-BCAV

e-BCAV is compatible with technical competencies, be they bespoke or industry competencies (such as e-ICMG).

- + Supporting long-term continuous evaluation of behavioural competencies, e-BCAV allows the time needed for assessment scenarios to occur naturally.
- + Fully compatible with Ocean Technologies Group CMS, implementing e-BCAV enables tracking of behavioural competencies, with digital records being available to both shore-based staff and officers aboard, so everyone has the information they need when they need it.
- + The competencies included in e-BCAV are neither prescriptive nor exhaustive, and can be easily adapted to meet specific business needs and scenarios.

Fully compatible with Ocean Technologies Group CMS

- + Enables tracking of behavioural competencies.
- + Digital records available anytime, anywhere and at the point of need.

Summary

e-BCAV:

- + Helps ensure consistent assessment of behavioural competencies across the fleet
- + Carefully selected assessment scenarios enable fast implementation
- + Flexible implementation through the Ocean Technologies Group CMS
- + Easily combined with technical competencies
- + Fully integrated into the Ocean Learning Platform
